INTRODUCTION.

Welcome to the CE-Real NewsLetter of July 2006.

You are on our NewsLetter distribution list because we received your registration request earlier via our WebSite www.CE-Real.com.

Should you wish to un-register, please send an email to info@CE-Real.com to cancel your registration.

WEEE / RoHS compliance in Europe.

Directives 2002/95/EC on the restriction of the use of certain hazardous substances in electrical and electronic equipment (**RoHS**) and 2002/96/EC on waste electrical and electronic equipment (**WEEE**) came into force on July 1st, 2006.

If you are unsure on the implications of these Directives and the issues related to them, we suggest you check the following websites:

http://ec.europa.eu/environment/waste/weee_index.htm

<http://www.rohs.gov.uk/>

<http://www.netregs.gov.uk/netregs/legislation/380525/473094/?lang=e>

Should you have any related questions or require assistance on this subject, please feel free to contact us via peter.dewit@CE-Real.com.

Ofcom (UK) consultation.

Ofcom has published a consultation document concerning proposals to amend the Wireless Telegraphy (Exemption) Regulations 2003.

This deals with equipment which can be used without the need for a Licence.

If you have interests in this field, the text of the consultation can be found on

<http://www.ofcom.org.uk/consult/condocs/wtexemption/>

ETSI Standards Published.

[ETSI EN 302 217-4-2 V1.2.1 \(2006-06\)](#) Characteristics and requirements for point-to-point equipment and antennas; Part 4-2: Harmonized EN covering essential requirements of Article 3.2 of R&TTE Directive for antennas

NOT a harmonized standard but relevant to R&TTE:

[ETSI EG 201 730-3 V2.1.1 \(2006-07\)](#) Application of the Directive 1999/5/EC (R&TTE), article 4.2; Guidelines for the publication of interface specifications; Part 3: Digital wireline interfaces

ETSI Standards on Public Enquiry.

[ETSI EN 301 489-1 V1.7.1 \(2006-07\)](#) ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements
NOT a harmonized standard (HS) but referenced from other parts which are HS

ETSI Standards on One-step Approval.

[ETSI EN 300 162-2 V1.2.1 \(2006-07\)](#) Radiotelephone transmitters and receivers for the maritime mobile service operating in VHF bands with the use of 12,5 kHz channels; Part 2: Harmonized EN covering essential requirements of article 3.2 of the R&TTE Directive

[ETSI EN 300 162-3 V1.2.1 \(2006-07\)](#) Radiotelephone transmitters and receivers for the maritime mobile service operating in VHF bands with the use of 12,5 kHz channels; Part 3: Harmonized EN covering essential requirements of article 3.3 (e) of the R&TTE Directive

Improved services.

Our customers often found that obtaining Type Approvals in Indonesia, India and Argentina was particularly difficult. In the past we at CE-Real have been able to provide satisfactory assistance to our customers, to help during the process getting regulatory approvals. We have been able to locate reliable partners in these countries. Via these local partners we can now provide an even better service in case you require Type Approvals in these countries.

Of course these three countries are not the only ones we can 'do' for you!
Please contact us via peter.dewit@CE-Real.com and provide us with your wish-list.
You may be surprised when you find out what we can do for you!

CONCLUSION.

This completes this July 2006 NewsLetter.
We hope you find the information that we provided helpful.
Please feel free to contact us for any remarks or questions.

Regards,

CE-Real
